REVOLVER FIRED BY
ITALIAN.

(By Associated Press.)
DENVER, July 17.—Three men fell victims of the revolver of an enraged Italian, Giuseppe Falerino, in the grading camp at Globeville, today. Falerino in turn was probably wounded by friends of the wounded men, who grabbed with him, deprived him of his revolver and turned the weapon on him. All the wounded are foreigners. The trouble was of several days standing and arose over a trivial dispute.

Pittsburg Strikers Issue Proclamation

Showing How System Has Robbed Them of Earnings

(By Associated Press.)
PITTSBURG, July 17.—Despite the assertion of President Hoffstott of the Pressed Steel Car company that "there is no strike," the entire plant of the company at McKees Rocks remained idle under a state of siege today. With the exception of the office force and some 200 employees, most of them gang foremen, the plant is without men and entirely in the hands of an armed force of deputy sheriffs, factory police and mounted constabulary. The strikers maintain a sullen, threatening attitude but save for a few

trivial disturbances the day passed without any serious violence. In a proclamation issued tonight the strikers cite thirteen instances of actual wages paid the workmen under pooling system which they claim is illustrative of conditions existing at the McKees Rocks plant. In one instance forty-five hours' work brought 90 cents pay. A riveter working 130 hours received but \$14.90. It is charged that in not one of the thirteen cases cited was the average wage more than 17 cents.

Mother Jones Says Flynn and His Supporters Are Forninst the Federation

(Associated Press.)
DENVER, July 17.—After wrangling all day over a controversy growing out of the strike of the brewery engineers at Butte, Montana, the Western Federation of Miners in convention here is no nearer a settlement tonight than at any time since the trouble arose. Moyer's supporters charge the adherents of P. W. Flynn, of Butte with stirring up the strike. The Flynn supporters are dissatisfied with the arrangements effected by President Moyer of the Western Federation of Miners and Secretary Proebstle of the brewery workers, and although clearly in the minority in the convention are able to prevent an endorsement of the settlement. The controversy will be taken up Monday. "Mother" Jones again addressed the convention this afternoon. She denounced the Flynn supporters as endeavoring to disrupt the Federation for personal preferment.

The convention today received an appeal from Los Angeles asking for legal aid for Al Ryan, organizer of the Western Federation, who last night shot two men in that city.

WASHINGTON, July 17.—Taft will win the fight for free or reduced rates of duty on raw materials. Nearly every member of the conference on the tariff bill conceded this today. Indications are that when the new tariff bill becomes a law the rates on articles which the president desired to come in free will be as follows: Iron ore, free (present rate 40 cents a ton); oil, free (now protected, countervailing duty); hides, 7½ per cent ad valorem (present rate 15 per cent); coal, 45 cents a ton (present rate 67 cents); lumber, probably \$1.25 on rough with the senate rate on finished. This will be a material reduction throughout the lumber schedule. Taft will win another decided victory in the Philippine free trade proposition. The sub-committee which has been considering this section has decided to permit free admission 150,000,000 cigars annually, as requested by the president, instead of 70,000,000 as would be admitted under the senate amendment adopted at the instance of La Follette. It is expected that the Philippine section as approved by the sub-committee will be adopted by the conferees Monday.

By the action taken today the tariff conferees have settled the question of giving the secretary of the treasury authority to issue 50-year bonds at a rate of interest not exceeding 3 per cent to cover the entire cost of purchasing a site and constructing the Panama canal. The effect of the bond publication is to repeal the limit of authorization contained in the Spooner act, although not interfering with the 2 per cent bond issue under that authority to the amount of \$84,631,980. The estimated cost of the canal is \$375,201,000 which will be the figures named in the new authorization bonds at a rate of 3 per cent. They may be issued as needed, therefore, to the amount of \$290,569,020.

BANK OFFICER ENDS HIS LIFE WITH BULLET

WAS DESPONDENT, SAYS WIFE,
BECAUSE HE HAD BEEN
DISCHARGED.

(By Associated Press.)
SAN RAFAEL, July 17.—A coroner's jury returned a verdict tonight that Baron William von Meyerlinch, former paying teller of the States Saving and Commercial bank of San Francisco, came to his death in his home last night by a gunshot wound self inflicted. No evidence was adduced at the inquest tending to throw any light on the case that led the former bank official to take his life, aside from the testimony of his wife, that her husband had been despondent since he was recently discharged.

MINING MAN FALLS TO DEATH

(By Associated Press.)
RENO, J. S. Phillips, president of the Pittsburg-Liberty mine at Masonic, near Bridgeport, California, was instantly killed this afternoon when he lost his footing and fell down an incline upraise.

Mr. Phillips was a resident of Carson City, having made his home there for several years. He was one of the original discoverers of the property and one of its largest stockholders. He was a man of family in the neighborhood of 55 years of age. He belonged to the Masonic lodge. He was one of the most highly respected men in the community and the news of his death will create genuine sorrow wherever he was known, as he was a man who made friends readily and one who retained them.

Wright Remains In Air Over Sixteen Minutes

A Wonderful Performance at Ft. Myer Drill Grounds

(By Associated Press.)
WASHINGTON, July 17.—After many mishaps the new Wright aeroplane today successfully navigated the air. Making the best record for the Wright brothers since the accident last fall, the aeroplane, guided by Orville Wright, traveling at a speed approximating forty-five miles an hour at a height of from eighty-five to ninety feet, remained in the air sixteen and one-half minutes when the aviator decided to alight, having encircled the drill grounds of Fort Myer fifteen and three-quarter times. The descent was made without difficulty. The machine was under control at all times.

Jeffries Promises to Meet Li'l Arthur And Is Ready to Post a Money Forfeit

(By Associated Press.)
CHICAGO, July 17.—James Jeffries and Jack Johnson failed to meet today according to the schedule outlined by their representatives. Jeffries was at the appointed place, but Johnson didn't leave his training quarters in Indiana until late in the day and said he wouldn't meet Jeffries. Jeffries in a signed statement stated his view of the many conflicting reports regarding his intentions and would make his plans public. At the conclusion of his theatrical contract, July 25, he would sail for Europe for a couple of weeks on a visit to Carlsbad. Before sailing he would post a forfeit to meet Johnson before the club offering the best inducements and best situated to hold the contest. He said Sam Berger was not Jeffries' pugilistic manager.

Promising Placers Near Old Mining Camp of Ione

L. V. Cirac is in Tonopah from old Ione, having come here for the purpose of being in attendance upon the case of Ford, who is charged with embezzlement and whose trial comes up next week. Mr. Cirac is one of the main witnesses in the case and will be heard in behalf of the state. Mr. Cirac states that there is considerable activity in and about Ione at the present time due to placer operations in the immediate vicinity of the former county seat. Several outfits are in there, of which the majority is reaping splendidly. Ione was worked for placers many years ago. That there was placer gold in the district was first brought to the attention of the world by former State Senator Bell,

who extracted considerable gold from the gulch just west of town. However, little attention was devoted to the country, it being at a time when the state was in a most deplorable condition. Now, after the lapse of many years, the section is again attracting attention and promises to make into a heavy producer. Little news comes from there but what does find its way to the outside world is of a very encouraging nature. Mr. Cirac states that the gold comes in large nuggets for the most part found at bedrock which is but a few feet below the surface. In all there are in the neighborhood of ten outfits operating there and each has a good showing. The surrounding country is alive with prospectors and there is every

CORBETT HAD NO SHOW WITH JOHNNY FRAYNE

CONTEST TAME FROM START TO
KNOCKOUT IN EIGHTH
ROUND.

(By Associated Press.)
SAN FRANCISCO, July 17.—Young Corbett proved an easy victim for Johnny Frayne, who knocked him out in the eighth round of a scheduled twenty-five round bout. Corbett was in no condition to put up a hard battle and at no time did he appear to have a chance. The men fought at catch weights, weighing at 135 pounds at 10 o'clock this morning. Corbett failed to make the weight. It was announced that he was fully ten pounds in excess of the requirements. The contest was a tame and uninteresting affair up to the time of the knockout.

DISPUTE OVER COW CAUSES A BLOODY BATTLE

(By Associated Press.)
UNION (Miss.), July 17.—A cow caused a bloody pistol battle in the streets here today, which resulted in killing two men, fatally injuring two more and seriously wounding another. The dead are E. J. McDonald, a cattleman, and Peter McDonald. Those fatally injured are Cornelius Chisolm, a cattleman, and Joe Miller. The fight was between the McDonalds on one side and Miller and Chisolm on the other. A disputed ownership of the cow caused the trouble.

reason to believe that it is but the matter of a short time when the entire section will take on a revival which will compare favorably with the boom of the early days in that locality. Operations at Berlin have been conducted of late principally by leasers, the big company having suspended operations there some time since, owing to the stringency of the money market. It is reported, however, that the owners will
